

# Injury Assessment Report

Date: 2025-06-25 19:24:46

**Injury Type: Cut**

## Precautions:

- Apply direct pressure to stop bleeding
- Clean thoroughly with mild soap and water
- Apply antibiotic ointment
- Cover with sterile bandage or gauze
- Change bandage daily or when soiled
- Seek medical attention if the cut is deep, gaping, or bleeding heavily

## Recommended Medications:

- Antibiotic ointment (Neosporin, Polysporin)
- Pain relievers (Acetaminophen, Ibuprofen)
- Antiseptic solution (Hydrogen peroxide)
- Liquid bandage for minor cuts
- Sterile saline solution for cleaning
- Hydrocolloid dressings for healing
